

TRADITION T10

SOLAR LIGHTING THAT COMBINES TRADITION AND INNOVATION.

The Tradition solar-powered street lamp gives you the traditional look of a street lamp, with 360-degree lighting powered by clean energy.

Up to 12 hours of light without recharging.

No excavation required

No fillage or electrician

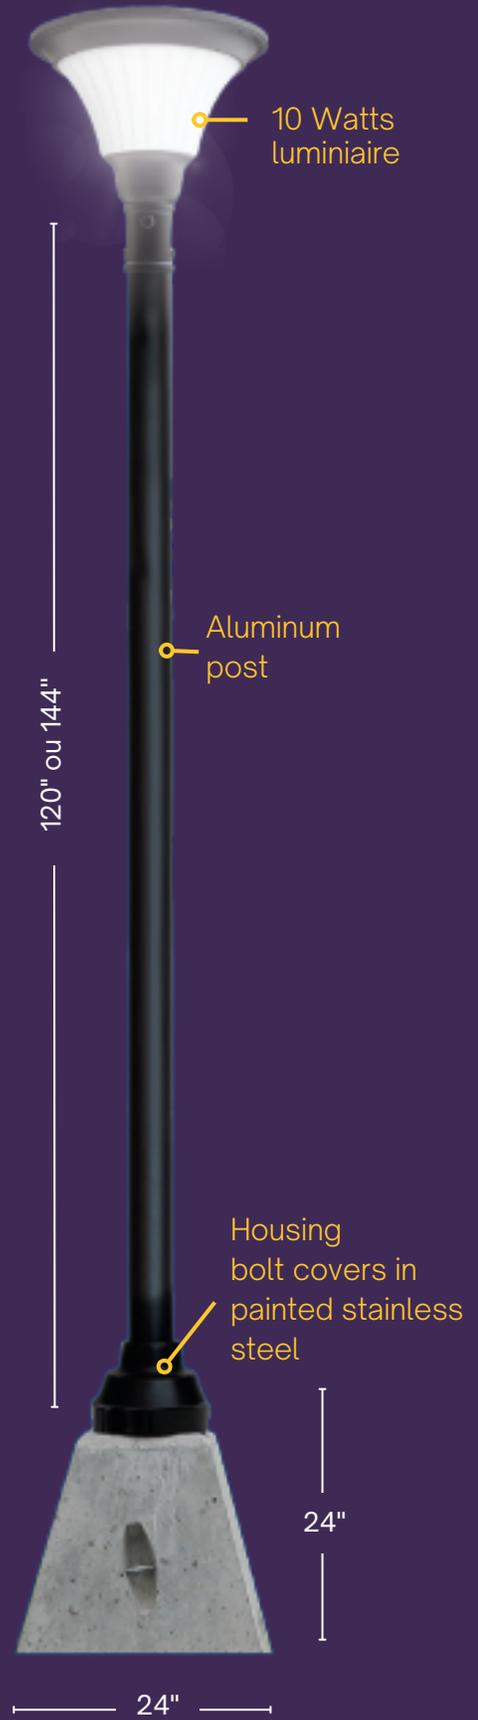

Moveable

Maintenance-free

The Tradition is lightweight and easy to move. It can even be stored in winter!

TRADITION T10

LIGHTING SPECIFICATIONS	
Lumen/Watts	100lm/Watts
Light output with LED (Watts)	10 Watts
Lumens (lm)	1000lm
Colour temperature (°k)	3000 °k & 5000 °k
LED lifetime	50 000 hours
SOLAR SYSTEM	
Solar module wattage (Watts)	18 Watts
Battery capacity (Watts)	92 Watts
Battery type	Lithium, Iron & Phosphate
Number of days of autonomy without recharging	Up to 12 hours
Operating temperature range	-30°C to +50°C
WARRANTY (MANUFACTURING DEFECTS)	
Solar panels	3 years
Luminaire	3 years
Battery	3 years
POSTS	
Material specifications	Painted aluminum
Dimensions (hight)	Up to 12 ft
